THE SOUND

Marko Mitrovic is a Schranz and hard techno DJ based in Bonn, Germany. His sound sits somewhere between dark, cool and groovy: tracks that pull you onto the floor from the very first kick and keep you there.

Danceability is everything to him. Every selection has to make the crowd jump, not just hammer them. His sets never drop below 155 BPM and run up to 163, with pounding kicks, rolling rumble and constant tension. He reads the room and works the opening, peak time or closing slot.

In summer 2026 he played two nights on the campsite at Nature One. Every set is recorded and published in full on YouTube, documenting the journey from the very first mix.

Next up: festival slots, club nights, and a residency in the Cologne/Bonn area.
